

ENVIRONMENTAL POLICY STATEMENT

XLCR Engineering Ltd recognises the need for sustainable development and continually aims to improve the environmental impact of its activities in accordance with BS EN ISO 14001: 2004.

Key policy objectives:

- ✓ Compliance with relevant legislative and regulatory requirements.
- ✓ Development of strategy that targets improvement, whilst monitoring performance via periodic management reviews.
- ✓ Consideration of all important issues in decision making processes.
- ✓ Nurturing relationships with customers and suppliers (including sub-contractors) in order to acknowledge mutual responsibilities.
- ✓ Educating personnel to carry out activities in a responsible manner.
- ✓ Quantifying key performance indicators (KPIs).
- ✓ Minimising waste by recycling or finding other uses for by-products whenever economically viable.
- ✓ Ongoing employee Environmental Management System (EMS) training.
- ✓ Promoting efficient use of energy and fuel across all operations.
- ✓ Communicating Health & Safety policy to all stakeholders.
